PREFACE AND ACKNOWLEDGEMENTS

The last fully revised edition of the 57-volume MONTANA COUNTY PROFILES, the fifth, was compiled by the Census and Economic Information Center in 1985. The statistical tables which you will find in this SUPPLEMENT represent a partial update of that fifth edition. These tables contain demographic and economic statistics pertaining to Montana and its counties which are compiled and disseminated annually by federal, state and private organizations.

A complete revision of the MONTANA COUNTY PROFILES is not feasible at this time because many of the data tables are products of the decennial Census of Population and Housing (1980, 1990, etc.) and the various economic censuses conducted every five years (1982, 1987, etc.). Only limited statistics from the 1987 Census of Agriculture are now available, and they are included herein. With these limitations in mind, this update is intended to supplement but not replace the fifth edition and therefore that publication should be retained as a companion volume.

Among the attached tables you will find a number of enhancements and additions. More data are provided in Tables 6.4, Personal Income by Major Source and Earnings by Industry; 9.7, Farm Income and Expenses; and 10.6, Employees, Payroll and Establishments by Selected Industry Groups. There are new Tables 1.11, Population Projections; 5.9, Covered Employment and Wages; and 6.9, Transfer Payments. Tables 2.3, 3.5, and 9.2 have been reformatted but Tables 7.3, 8.2, 8.6, 10.7 and 10.8 have not been updated because of a dearth of readily available data. Several tables have undergone title changes, but the data format remains the same as in the past.

Many thanks are extended to the dedicated employees of state and federal government, too numerous to mention, who so graciously provided the files of statistics which are found in these tables. The overall direction of Patricia Roberts and the proofreading assistance of Pam Harris, both of the Census and Economic Information Center, and the troubleshooting expertise of Data Processing Manager Gary Wulf are deeply appreciated.

You are encouraged to check with the Census and Economic Information Center regarding the availability of additional data which may not be represented in any of the COUNTY PROFILES tables, and for more up-to-date statistics, particularly in terms of the economic censuses. A full set of these COUNTY PROFILES SUPPLEMENTS is also available in microfiche format.
